Re: 097-17487-00435
Revocation of MSOP 097-15846-00435

Dear Mr. Jeff Copeland:

On April 4, 2003, Indy Engine Test notified the Office of Air Quality (OAQ) and Office of Environmental Services (OES) that all permitted equipment located at 2900 North Shadeland Avenue, Indianapolis, Indiana, 46219 have been dismantled, thus eliminating the need for an operating permit.

The Minor Source Operating Permit (MSOP) 097-15846-00435, issued on October 25, 2002, is hereby revoked. Pursuant IC 4-21.5-3-5(a) and (b), this revocation letter is effective in eighteen (18) days from the date of this letter.

Any construction or modification that would result in potential to emit greater than the exemption levels, as specified in 326 IAC 2-1.1-3 (Exemptions) shall be subject to New Source Review (NSR) and must be approved by the OAQ and OES before such construction or modification may occur.

If you have any questions regarding this revocation, please contact Keshav Reddy of my staff at (317) 327-2221.

Sincerely,

Originally Signed by John Chavez
